

# MATEUSZ STANKIEWICZ

FRONT-END & SHOPIFY DEVELOPER | E-COMMERCE

Bialystok, Poland [✉ mateuszstankiewicz999@gmail.com](mailto:mateuszstankiewicz999@gmail.com) [☎ +48 728034680](tel:+48728034680)

## PROFILE

Highly motivated front-end developer and software engineer specializing in creating exceptional websites, with a focus on detail. Experienced Shopify specialist eager to contribute to a dynamic company's success. Seeking a challenging role in a growth-oriented environment. Let's connect and discuss how I can enhance your team.

## EMPLOYMENT HISTORY

### Affiliate eMarkt X

Front-end & Shopify Developer | Software Engineer

- Contributing to various Shopify projects, I specialize in scripting, automation, and providing design assistance as a freelance professional. I bring a creative and detail-oriented approach to enhance the functionality and aesthetics of online stores.

February 2022 - Present  
(Freelance, remote worldwide)

### Podlaskie Centrum Modelarskie

Front-end Developer | SEO Specialist | E-commerce

- Managed three websites across different platforms: Modelarski Bialystok PrestaShop (<https://modelarski.bialystok.pl>), Murat-rc.pl on Shoper (<https://muratrc.pl>), and Murat-rc.com on Shoper platform (<https://murat-rc.com>). Conducted enhancements and maintenance for all platforms, ensuring optimal functionality and user experience. Additionally, successfully conducted e-commerce operations on various marketplaces and utilized Baselinker for enhancements. Demonstrated prowess in expanding company reach to new marketplaces such as eBay.com (US market), eBay.pl, allegro, Etsy and Amazon.

January 2024 - March 2024  
(Bialystok, Poland)

### MS - Regaly

Front-end Developer | SEO Specialist

- I successfully executed SEO strategies to enhance website positioning, implemented website optimizations ([ms-regaly.pl](https://ms-regaly.pl)), and ensured the overall health of the WordPress system by keeping all components up to date. Additionally, I created a user-friendly contact form and established a new Google My Business card for the company.

December 2023 - January 2024  
(Bialystok, Poland)

### ZEN Energy Sp z o.o.

IT Team Lead | Front-end Developer | Software Engineer

- Developed a personalized CRM for their brand, managed a Trello system, and set up a Business Discord server. Created two versions of the Salesman PV Solar Calculator: the first one using JavaScript and the second one with advanced Excel. Established a company Green Energy items catalog. Provided mentorship to a pair of young IT talents and crafted Python scripts. Managed foundations and company business mailing (ZEN Energy signatures and professional email accounts within one Google Workspace environment).  
- Implemented minor changes on the website and handled SEO and clean code tactics for ([zenenergy.com.pl](https://zenenergy.com.pl)). I guided them in the process. Also, took care of Google My Business and designed business cards. All of this was done under a 3-month contract.

September 2023 - December 2023  
(Bialystok, Poland)

### Polymer Group Sp z o.o.

Front-end & Shopify Developer | E-commerce specialist

- I built the company website, ([polymergroup.co](https://polymergroup.co)), using WordPress to showcase a range of brands. The initial version of Lalu World beauty shop was on the Shoper engine. Later, I successfully migrated Lalu World v2 ([laluworld.com](https://laluworld.com)) to Shopify platform. This substantial project comprises over 4,000 products, involving work on SEO, security, and integration with various marketplaces. Additionally, I created a ([B2B panel](#)) and connected both websites through the new system. The entire Lalu World Shopify project was developed by me.  
- Simultaneously, I was busy managing multiple auctions on platforms such as Amazon, Allegro, and Empik, while also overseeing Baselinker and the Idea ERP system.

March 2022 - September 2023  
(Bialystok, Poland)

### DMW Logistics LTD

High Reach FLT Driver | Warehouse specialist

- Worked as a driver and assisted my supervisor with paperwork and orders at the goods-in site.

January 2016 - September 2021  
(Nottingham, United Kingdom)

## EDUCATION

### Technical University of Bialystok

Front-end Development, Web applications

January 2014 - December 2015  
(Bialystok, Poland)

## CAREER OBJECTIVE

Passionate about Shopify initiatives, I seek collaborative opportunities with ambitious professionals. With a focus on e-commerce and Shopify, I aim to contribute creatively to dynamic projects. Having played a significant role in the success of Polymer Group Sp z o. o. and ZEN Energy Sp z o. o., I bring adaptability and versatility to new software engineering ventures in both corporate and freelance environments. Excited about future possibilities, including the aspiration to establish my own E-commerce Shopify business.

## RECENTLY

I created a custom XML Generator for the Ceneo marketplace on Shopify (Rest API). I developed an Amazon product scrapper and a tool for cleaning blacklisted IP's to eliminate duplicates (Python).
